

FOOD SAFETY POLICY

PE.DI is a family company whose greatest asset is its team members who are the lifeblood of the company.

PE.DI's "strength" stems from its quick but flexible solutions, from the commitment of its owners and their employees, from creativity and from an uncompromising belief in quality.

PE.DI's customers operate in sectors where image has a strong impact and it is for this reason that PE.DI's entire supply chain must safeguard product quality.

PE.DI's management undertakes to implement, develop and continually improve a Hygiene Management System - hygiene of their processes and products pursuant to the requirements of FSSC 22000.

PE.DI's Management therefore urges all of its collaborators to be committed, with diligence and a sense of responsibility, to achieving the highest levels of hygiene safety - hygiene of products, approval and consequent customer satisfaction. This will ensure a prosperous future for the company and all of its employees.

The Management therefore recognises the value of a management system in compliance with the FSSC 22000 regulation and instructs the Quality Manager and Director of food safety to implement and keep updated the PE.DI quality and food safety management system and periodically verify compliance with the requirements imposed.

PE.DI's aims are to:

- achieve maximum customer satisfaction in order to maintain their prestigious position among highly active and competitive market opponents
- provide customers with a safe and quality product
- provide products that always guarantee the hygienic and sanitary safety of consumers
- ensure full compliance with legislative requirements applicable to the sector .

All PE.DI personnel are delegated to comply with the instructions given by the Management which is summarised in the GMP Manual, in the PrP Procedures (pre-requisites for food safety) and in the specific Company Instructions. They should indicate any possible improvements which will be evaluated with the aim of leading to better operations with minimum effort and maximum impact.

PE.DI s.r.l.
